

Public Notice

Our water system recently violated a drinking water standard. Although this is by no means an emergency, as our customers you have the right to know what happened, what you should do, and what is being done to correct the situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our water standards meets EPA's health standards. During **September 2010** we only **collected one (1) of the required two (2) samples for Total Coliform.**

What should I do?

There is nothing you need to do at this time.

What does this mean?

There is no immediate risk. If there had been, you would have been notified immediately.
